To advise statistical users, in response to questions raised.

Process description

Process description

Service requests

The CSP' s consultation on the official statistical data is available at the email or mail.

Raising the question of statistics, free text to describe all the details: the required indicators; administrative unit (city, province or region); the periodicity of data (annual, quarterly, monthly data); the time period (for example, from 2000 until the last available year). Specifying the sector, the type of goods, industrial production type, profession, we recommend that you use classification.

The issue and if in doubt, call 67366922.

Receipt of services

The service is received by mail or e-mail request for the selection.
